

Industrial Video Endoscope

The New Dart Industrial Video Inspection Endoscope / Borescope with a vinyl coated flexible imaging bundle enables the inspection of the most inaccessible areas. The Scope does not have an eyepiece but connects directly to a computer and comes with easy to use software and light provided by the powerful LED Light Source enabling problems to be identified easily.

The 45 degree threaded mirror attachment provides increased vision perpendicular to the entry point adding increased functionality.

The Scope has a fully flexible obedient shaft enabling it to be inserted into very small diameter apertures where it will track along the pipe / duct / cavity. This unit is ideal for Electricians, Automotive, Aerospace, Locksmiths, Mechanics, Law Enforcement, Gun Barrel Inspection etc.

Contents

- VideoScope
