

Industrial Endoscope – 4mm to 6mm

The Dart Industrial Inspection Endoscope / Borescope with a vinyl coated glass fibre flexible imaging bundle containing 7400 fibres enables the inspection of the most inaccessible areas. With light provided by the powerful Xenon Light Source problems can be identified easily.

The 45° threaded mirror attachment provides increased vision perpendicular to the entry point adding increased functionality.

The Scope has a fully flexible shaft enabling it to be inserted into very small diameter apertures where it will track along the pipe / duct / cavity. This unit is ideal for Electricians, Automotive, Aerospace, Locksmiths, Mechanics, Law Enforcement, Gun Barrel Inspection etc.
