

SECA DS100

Cavity Inspection Camera

The Dart Cavity Inspection Camera provides a high specification solution to Cavity Inspection. The system allows for in-depth inspections and surveys of cavity wall voids with the capability to take high quality video and stills of the selected area. Utilizing a 5" LCD high resolution screen coated with an anti-glare coating to aid use in sunlight, the system provides a safer, and more user-friendly solution to traditional optical viewing systems.

- 5" LCD display and control unit
- 300mm stainless steel camera probe
- Captures images and videos
- View up to 1.5m cavity depth
- Can be used for cavities of 20mm or more
- Can be inserted through 10mm diameter holes
- Safer than optical viewing systems
- Modular system with optional extras including: battery packs, vehicle chargers, transport cases

Applications include:

- Cavity wall inspection
- Wall tie inspection
- Dry rot inspection
- Pest control
- Boat surveys
- Utility inspection
- Perimeter security
- Surveillance
- Maintenance of technical equipment
